Black Belt testing — rules check

For Master Jeong. The new dashboard will grade Black Belt testing exactly the way the school does. A few numbers in the old Google Sheet look like they might be mistakes, so please check each one. Tick a box or write the answer. Numbers below are from the Fall 2026 Sheet. — Jeffrey

1. Points for B and B− on some subjects

Most subjects give **credits × grade points** (B = 2.5, B− = 2.25). But these subjects use a fixed table where B and B− are a little lower:

Subject	Credits	B (Sheet)	B (credits × 2.5)	B− (Sheet)	B− (credits × 2.25)
Egg test, Assistant instructor course (1st–3rd Dan)	5	11	12.5	10.5	11.25
Meditation, TKD project (1st–3rd Dan); 4th Dan egg test, meditation, letter, free sparring, terminology, knowledge	4	9	10	8.5	9

☐ The Sheet is right (keep 11 / 10.5 and 9 / 8.5)

☐ Use credits × grade points like the other subjects

2. Which grades exist

Curriculum uses A+ A A− B+ B B− C+ C C− D (C+ is worth 2.8 but can't be picked in the Sheet). Technical's paper sheet shows only A+ A B+ B C D, but the Sheet also accepts A− B− C−.

Technical and other requirements: ☐ A+ A B+ B C D only ☐ also A− B− C−
